## Installation column 62x130-9010, 650 mm, 1-sided, aluminium, pure white

### Product description

Powerpole made of aluminium with a 76.5 mm wide fixing track for device installation of commercially available switch ranges in combination with accessory mounting boxes or M45 built-in devices with the aid of front-locking installation frames, cable entry through the base, consisting of a base with a DIN rail for snap-in mounting of a partition wall made of plastic for separating cables and cover as a pole body (height 650 mm), a fixed-mountable base plate (width: 200 mm, depth: 132 mm, material thickness: 17 mm), a 4-sided covering lamination for a clean transition from the base plate to the column corpus, a top plate to secure against unauthorised opening and an end cap for a clean finish. Potential equalisation and earthing measures must be carried out professionally. The specified length corresponds to the length of the column body.
